## DONA ANA vs. SIERRA.

A law was passed a few years ago setting off Eierra county from Grant and Dona Ana counties. The law as it stands on the statute book provides that Sierra county should stand its proportion of the dept of the other counties. Sierra has been a little slow in paying this debt and Doffa Ana sued Sierra for the amount.

Sierra county sets up an unusual defense. It is to the effect that when the division act passed the legislature it did not contain this provision but that it was interpolated afterwards.

The matter was brought to the attention of the legislature and a committee has been appointed to investigate the matter, but has not been able to procure the altendance of witnesses.

The LIBRUAL had the pleasure of interviewing the Hon. John A. Miller on the subject last Saturday. Mr. Miller was a member of the council at the time the division was made, and was a memberchairman, we think-of the committee on county lines. Mr. Miller said:
